Non-Chicken Chicken BBQ

By: Lindsey Williams

This year's Non-Chicken Chicken BBQ was held on August 28th at Happy Hallow Park. The fun-filled evening started with an ice breaker in a group circle where Purdue-IAAE Members introduced themselves. Then we all gathered for fellowship during dinner. Once dinner was finished each class competed in the traditional volleyball tournament between the classes. The final game consisted of the junior and senior class competing for the championship title. The seniors were unbeatable and walked away with the championship title. Overall the Non-Chicken Chick BBQ was a success!

The rain didn't keep us from soaking in all the fun and assisting FFA Members.

Diggin' Deep Into Soils

By: Andrea Smith

On September 17, 2016 the Purdue IAAE group helped the Purdue Agronomy club put on the Soils Invitational for area schools and county extension programs. The eager Purdue students arrived before check in to help with registration, help direct traffic and monitor the soil pits inside and outside. There were pits set up inside as rain was favorable in the forecast the week before and the day the contest. Students could still go to the outside dug pits and look at the land and soil in the rain. Once students were done judging pits they could go to critiques where the soils judging team was giving critiques (reasons) as why they labeled the pits. It was a very wet but very knowledgeable morning as IAAE members learned about the soil judging contest from a proctor or advisors point of view.

Ice Cream Social

By: Lindsey Wietlisbach

On August 31st, the college of ag put on the annual Ag Council Ice-Cream Social in front of Lilly. The IAAE-Purdue organization had a booth set up and passed out chocolate sprinkles to students who stopped by for some information on what IAAE-Purdue had to share. There was a great turn out and we were lucky enough to have a great day to have the event on. Everyone that came out and participated had a great time and learned a lot about Ag related clubs!

Highway Clean Up

By: Mariah Merryman

On Tuesday the 27th, IAAE-Purdue had a group get together to clean up the adopted highway just off of State Street. It was a wonderful night with great weather to clean up the highway. The group split up into groups that took different sections of the road to pick up trash. Once the group was all finished with cleaning up the adopted highway, you could clearly see a difference. Now our road and our community is a nicer and cleaner place.

Mentor/Mentee Trip

By: Elizabeth Brown

As exams started up, some members of the Ag Ed family took a break from studying to enjoy a beautiful day at the Columbia Park Zoo in Lafayette. A unique aspect of the Purdue Ag Ed experience is being paired up with a mentor during your freshman year. These mentors are upper-classmen in Ag Ed who provide advice, encouragement, and friendship. Mentor Emily Brite said, "My mentor was

great my freshman year so I jumped on the opportunity to help younger students the way she helped me, also seeing the wallaby is always fun!" After the zoo the mentors and mentees got frozen yogurt and got to know each other better. It was all around a great afternoon!
